## EDUCATION

### REGENT HOUSE GRAMMAR

GCSEs

9 at grade A to C

### BANGOR SERC

LEVEL 3 EXTENDED DIPLOMA IN IT

Distinction

## WORK EXPERIENCE

### CREATOR / CEO @ JAUNT

AUGUST 2016 - NOW

Designed and created a social travel app after gaining help from Google and other local companies such as the Ormeau Baths. The Android app and website have both been launched into Beta with the app ranking in the top 25 new travel and local apps in the UK and USA and top 100 in over 20 other countries.

### IT MANAGER @ RAY GRAHAMS

JANUARY 2014 - MAY 2016

Managed the day to day runnings of a busy 35,000 page ecommerce site including marketing, development and Adwords. My team and I grew the online revenue of the site by millions of pounds each year. I was also credited with analysing and designing new systems to speed up the packaging of deliveries.

### WEB DEVELOPMENT @ ANGRY CUBE

JULY 2011 - NOW

Started designing and developing websites for local businesses from a young age and then moved into design shortly after. To date I have undertaken developed and design projects for over 50 small local businesses and large global clients such as the McLaren F1 team.
